A certain merchant has recently succeeded in obtaining from the Tsin Hou Kok (the Municipal Council) the privilege of cleaning the streets and of collecting the refuse. He undertakes to do the job without asking any money from the people in consideration of the work he does for them. He has rented a house near the Dau-Pao Bridge at the West trate to be his office. and his business style is to be the Tsing To Kung Shan (the Street Cleaning Company). Business will commence very shortly. In consequence of the many robberies that have been committed in the West Gate districts and in the neighbouring villages, the merchants in several streets near the West Gate have united together to form a Committee for the employment of braves for their defence. The subscription for each shop is to be the amount of one month's rent whether

the shops be large or small. The committee has further issued a notice offering a reward of \$100 per head for the arrest of robbers and promising that if any one be wounded in attempt ing to effect arrest, medical aid will be afforded until the patient recovers, and that if any one's death be caused in a struggle with the robbers a due amount of compensation will be paid to the deceased a family.

The panie of the Court is subsiding. The three grand armies of Generals Yeh and Nieh beyond the Great Wall and the disciplined troops of Li Hung-chang are forming an immense cordon round the insurgent bands and will eventually succeed in ornshing or dispersing these hordes, but not probably until the Generals led at half the distance by a length it seemed have protracted their measures long enough to lend importance to their operations. > Two ganboats are reported at Tientsin, the Firebrand and Japanese Atago. An American and a French vessel have been urgently, and even nervously, appealed for by the respective Consuls at lientsin; but they will not come. The somewhat abourd request one of them is reported to have made to Li Hung-chang for permission to march foreign blue jackets to Tientsin if the gunboat failed to enter savoured too much of the marching and counter marching between Chemulpo and Seoul for the nerves of the Viceroy, and it is said he requested the distinguished foreign official to keep his hair on, or words to that effect.

It is said that the British Minister is complaining to the Tanng-li Yamen of the increasing aggressiveness of the Peking populace towards foreigners, equestrian and pedestrian. On the other hand some visitors were civilly treated the other day at the femous Lama temple in Peking. The Catholics even at the seat of war were ordered by their bishop to remain at their posts with their congregations.

The Governor of Moukden, the Commandern-Chief of the Chihli troops beyond the Wall, and Li Hung-chang make a joint memorial to the Throne reporting their recent successes over the rebels in the neighbourhood of Pakon, which s a little east of Joho, and in the Kinchow district. It seems that in order to get a share in the business the Moulden Governor borrowed and paid for a portion of the Chihli troops under General Nich. just as if they belonged to a system of autonomous loosely confederated states instead of to one great empire. Great slaughter is reported from the scenes of

the recent actions, the unarmed rabble, for such after all they prove to be, being mown down wherever caught and the troops outling off their heads with choppers, grass-outters, and implements of all kinds. The carnage was the greatest at the scene of the massacres of Christians. It is satisfactory to note that the Peking Government and the Viceroy of Chihli distinctly recognize the massacre of Chinese Christians as beaten (in time) in yesterday's race by the a breach of good order, for the Commander who witnessed the crime has used the grace to commit snicide, while the Magistrate who abetted it is Conflicting reports come in from the city of

Another formidable attack on the Tsung-li Yamen was made the other day by M. Lemaire, the French Minister, to compel the Government to dispense some favours to the poor French industries. His despatch is very threatening in tone, but it has a conting of sugar too, for His Excellency hints in pretty plain terms that if the Chinese will give the French some vailway contracts, all else will be forgotten and forgiven. As for the Christians-well, thirty pieces of silver would be a consideration. You were told some months ago, in connection with the concert of the Powers, that France had already gone cold as regards the united pressure. Now she has the hot fit, but it is not for the protection of Christians or missionaries, but to feed hungry French speculators. This is what the diplomacy of great nations now comes to in China.

MORE ABOUT THE HUNAN PUB-LICATIONS.

INTERESTING DISCLOSURES. Writing from Hankow on the 8th December Dr. Griffith John says in the N. C. Dai News:-In a letter just received from one of m native friends in Hunan there is one item of i teresting news. My friend writes, "I feel an that you have received my former letter, an that you have communicated the facts to the Vicercy Chang; for a despatch from the Vice roy has reached Hunan, and the Governor Hunan has ordered the district magistrate quickly seize and bring to trial the heads the three printing establishments Teng Me hwa, Tseng Yen-wen, and Chen Tsu-teh. Th management of this affair (the publication and dissemination of the anti-foreign literature) undertaken by Chou Ta jen who formerly hel the official rank of Taqtai. This man says the he has spent more than Tis. 20,000 on the publication and dissemination of anti-foreign books, tracts, and curtoons. At present he is the district magistrate's office defending the cause of these three printing establishments, an bearing all the expenses connected with their tria He says that he alone is responsible, and th the affair has nothing to do with any one elso: Such is the interesting bit of news which be just reached me. Though my friend is wrong in supposing that there has been a direct com munication between the Vicercy and mysel there can be no doubt that it is the discovery of Teng Men-hwa's guilt, made by me some weeks since, that has led to the arrest of the heads of these three printing establishments. The names of the other two have not been unknown to me; but, the proof of their guilt being not sufficient, I thought it best not to mention them at all. It is evident, however, that their true character has been known to the local officials all along; and it is to be regretted that it was necessary that a foreigner should call public attention to the existence of this source of danger in thangsha, ere the officials could be induced to take the least not ce of it.

Personally I am thankful for the action which H.E. Chang Chih-tung has already taken in re-of course no other than Chou Han? Your Chinese Loan '85 E. Steam Laundry... he boasts of the fact that he is the chief culprit, defies both the Viceroy and the Governor, and demands the immediate release of his relative

and all his companions. On that occasion Chou Han did not interfere in vain. His relation was released, and, ever, since, he himself has been carrying on his antiforeign crusade with as much energy as ever. The Hunan manifesto is, no doubt, a production of his brain and pen, and so is the pictorial work to which I called attention in my letter of the 21st ult. He is now interfering on behalf of these three printing establishments, and it remains to be seen with what success. But the errest and punishment of these three establishments is a matter of very secondary importance. The real offenders are thou Han and his official companions, and the putting down of this evil will depend wholly and entirely on the action that will be taken in recard to them. In one of his placards Chou Hanwrites: "My neighbour Timei Wu-tze, when compiling the 'Death Blow to Corrupt Doctrines, concealed his real name, and called himself The man most distressed in heart.' This Luzon Sugar he did in order to shun the point of the devils' spear. Not so Han." And he then gives his own name in full, together with the name of his native city. Whether he is a truly brave man, or whether he is merely presuming on his position and influence, I cannot say. In any case his name is well known to the higher officials as the inspirer and leader of this autiforeign movement in Hunan. If H.E. Chang is sincerely desirous of bringing this strife to a satisfactory close, he will deal at once with this man and his official associates of the Benevolent Hall. Let him secure their degradation and banishment, and the anti-foreign agitation in Hunan will die a natural death. The missionaries Wchoi Wareh'se Co. will find travelling in Hunan as pleasant as they do now in Hupeb, and the Viceroy himself will have less difficulty in governing the province on the lines of his own choice. Those who are at the bead of the anti-foreign movement in Hunan are the sworn enemies of all progress, and bent on opposing the introduction of every innovation, however beneficial to the country. It is not in the interest of the foreigners only that I suggest the punishment of these men, but in the interest of the people of Hunan also. Besides, to punish the printers of these publications, whilst their authors and real disseminators are allowed to go scot-free, would be atropious. I greatly fear, however, that this is the very thing that is going to be done. But can the Vicercy bring Chou Han and his associates to book ? Perhaps not, un ess pressure is brought to bear upon him from Peking. It is for the representatives December :- For Continent-272 bales raw tilk, of the Foreign Powers in Peking to bring 63 causs silk piece goods, 27 bales waste silk. pressure to bear on the Central Government, and | 750 packages tea, and 53 packages sundri s. thus make it possible for the Viceroy to deal. with the case. "Let them alone and the whole thing will die down of itself." So writes a friend from Shaughai. But my friend has never been to Hunan, and knows nothing about the Hunanese at home. The policy of the past has been the policy of letting them alone, and Dec., had fresh N.E. wind and high sea. the result has been what we have seen this year. In the interest of China, as well as in our own interest. I hope and pray that our Minister in Peking will not let them alone, till Hunan shall cease to be the fount of the poisonous literature which has done so much mischief of late.

Yik-ang LA VIA AMOT..... [COPY.]
garet Morland, of Throstle Nest Farm. Haya Park, near Knaresboro', Yorkshire, do solemnly and sincerely declare as follows :-"I have suffered all my life from a weak stomach, indigestion, and liver complaint. I was never properly well but always ailing and never seemed to gain strength. I had a bad taste in the mouth and a strange sinking feeling at the pit of my stomach. I had always pain after, eating, no matter how simple the food was. My appetite was poor and what little I ate did not seem to give me strength. I had great pain at the chest and sides and felt as if I was held or bound round my waist. I was much troubled with sickness and very often found no ease until I vemited all the food I had taken. I felt low, weak, and depressed, as if something was hanging over me. I could not sleep at night, and got so bad that I even dreaded going to bed, for would lie awake for hours together, and on rising in the morning I felt worse tired than when I went to bed. As years went on I became a bad colour, my skin and particularly the whites

of my eyes were tinged of a yellowish colour, and at times I was as yellow as a sovereign. In August, 1880 my stomach became very irritable and everything that I took turned sour on my stomach, and I was constantly vomiting a foul bitter fluid or gas. I took little or no nourishment, and after each morsel of even liquid food I strained and vomited as if my poor inside FOR SINGAPORE, HAVRE, LONDON would come out. The pain at my heart now became so severe that I became alarmed and sent for our doctor, who attended me for ten or twelve weeks, but all the medicine he gave me did no good. The doctor soom d puzzled Captain Davies, will sail on or about the 24 with my complaint and changed the medicine over and over again, but still I got worse instead of better. At last I lost all faith in physic and gave up taking it. Now better, now worse, I continued until July. 1888, when my kidneys became affected. I had dreadful pain in the back and could not void my water. My skin was dry and hot, my lips parched and feverish. After a time the water lodged so bad that I thought I should have died. I grew weaker and weaker every day, and felt that if a change did not soon take place my condition would be critical, for the pain was more than I could bear. I could not bide to lie in bed, and had to get out

of hed and walk about the room. I took all kinds of medicines but nothing gave me more than temporary relief, and I dragged on in this miserable state until December, 1888, when Mr. Day, the chemist at Knaresboro', sent me book telling of a medicine called Mother Seigel's Curative Syrup, and I read of a case similar to mine having been cured by this medicine. I determined to try it, and sent to Mr. Day and procured a large bottle of the Syrup and commenced taking it. I soon began to find relief, my food digested better and gave me strength. all pains in my back and sides left me. I could now sleep better and gradually gained strength every day, and by the time I had taken a 4/6 bottle I was better than ever I was in my life, and by taking an occasional dose I have since kept in good health. I may mention that I paid over six pounds to one dector and did not receive any benefit whatever. I feel very grateful f r the great benefit I have received from Seigel's Syrup, and I wish others to know of it. I have recommended the medicine to many

people in this district with great benefit. My daughter, Mrs. Ware, living at York, was oured LIGHT. cf severe dyspepsia after every other means had failed. If dy publishing this statement others may be benefited I shall be very glad, and I hereby give permission to the proprietors of Seigel's Syrup to make any use they may think fit of this testimonial, and I make this solemn declaration conscientiously believing the same to be true. By virtue of the Provisions of the Statutory Declaration Act, 1835. (William IV. c- 62.) Declared before me at]

lady, is a farmer, well known and highly respected. He has lived on his present farm at Turostle Nest, Haya Park, neventeen years, and in the district all his life. He was present at Leeds when the foregoing declaration by his wife was read, and vouched for its accuracy and truth.
